The LKDN with the support of the AAKP have teamed up to bring you an important educational and communications training workshop.

This workshop educates people who need, or will need a kidney transplant so they understand the facts about living donation and have the skills to effectively communicate the information to others. The benefits of a kidney from a living donor, they last on average twice as long as one from a deceased donor are indisputable. **If you are apprehensive about talking to others about your situation, or would like to learn more about pursuing a living donor kidney transplant, this workshop is for you!**

If a family member or friend wants to help you spread the word about your situation, you could ask them to attend the workshop with you.

You will leave the workshop with a plan that will start you on the path to a successful living kidney transplant experience.

This is a complimentary class offered by LKDN and supported by AAKP. The workshop is taught by transplant recipients and living donors who bring practical applications to this critical subject.

Class size is limited to 20 – 25 so please register by email: workshop@LKDN.org and indicate your interest in attending and the number of reservations needed, or call 312-473-3772 For more information go to: www.lkdn.org or http://www.lkdn.org/lkdn_workshop.html
