Transplant Center

To Whom It May Concern:

I want to thank you and the Living Kidney Donors Network for the travelling and leading the workshop for our patients. The workshop was successful as was expressed by 30 patients and advocates in their comments on the evaluation form. The added bonus to your trip was the training session after the workshop for our staff and the living donor and recipients who are volunteer facilitators for future workshops.

Our staff was impressed by your professional approach, knowledge and attention to detail in all aspects of the program and training. You are an excellent colleague to partner with and our volunteers and staff immediately connected with you and the program's goal. Your follow up with our staff and volunteers is greatly appreciated.

Due to the successful training and interest from our patients we have developed a monthly workshop, the last session had 19 patients attend. Patients, their advocates and the volunteers leave the training happy, hopeful, and energized with a skill set to help them to search for a living donor. Next month, we already have 20 patients signed up. We thank you for your commitment to this cause, LKDN has developed an excellent program.

Sincerely,

Lisa R. Dubey, LCSW  
Renal/Pancreas Transplant Social Worker
